Embracing Your Leadership Style

In 2011, Megan founded Inspired Consulting with the goal of helping people achieve their dreams. With her extensive experience as a certified Master Coach, she has helped numerous clients achieve both professional and personal success.

Joining her workshop, attendees will learn how to develop their own unique leadership style to achieve winning results in all aspects of their lives. Megan will guide participants through identifying their character strengths, the importance of having a vision, ways to enhance their vision, and how psychology influences leadership style. After attending, you will have a clearer understanding of what you want to accomplish and the steps needed to reach your goals.
